BUSINESS PLAN

Kigali Smart E-Moto Lease Ltd

Electric Motorcycle Leasing & Transport Services

Business Name:	Kigali Smart E-Moto Lease Ltd
Business Type:	Electric Motorcycle Leasing & Transport
Location:	Kigali, Rwanda
Prepared By:	MUSONI RODRIGUE
Date:	April 2026

1. Executive Summary

Kigali Smart E-Moto Lease Ltd is an innovative transport business that leases electric motorcycles (Spiro e-motos) to licensed riders. Riders operate in the public transport sector and pay a fixed weekly fee of 40,000 RWF per motorbike.

With an initial capital of 15,000,000 RWF, the business will start with 10 electric motorcycles, offering a modern, eco-friendly transport solution aligned with Rwanda's national green economy vision. Profits will be reinvested every 6 months to expand the fleet progressively.

The business projects annual revenue of 19,200,000 RWF against annual expenses of 3,800,000 RWF, generating a net profit of approximately 15,400,000 RWF in Year 1. By the end of Year 1, through reinvestment, the fleet is projected to grow to 29 electric motorcycles.

2. Business Description

Kigali Smart E-Moto Lease Ltd focuses on acquiring electric motorcycles from Spiro — Rwanda's leading electric motorcycle provider — and leasing them to licensed moto-taxi riders on a weekly payment basis. The business combines transport services with green technology, creating a profitable and sustainable enterprise.

Key Features

- Electric motorcycles: lower operating costs, zero fuel expenses
- Fixed weekly payments of 40,000 RWF per rider
- Riders are responsible for their own riding permits and compliance
- Battery swapping through Spiro's network instead of traditional fueling
- GPS tracking and mobile money payment integration

3. Vision and Mission

Vision

"To become the leading provider of electric motorcycle leasing services in Rwanda, empowering riders with sustainable and affordable transport technology."

Mission

"To promote sustainable transport in Rwanda while generating consistent income through efficient electric motorcycle leasing, technology-driven management, and strategic reinvestment — contributing to a cleaner, greener economy."

4. SMART Objectives

SMART Criteria	Objective
Specific	Launch operations with 10 electric motorcycles (Spiro e-motos) in Kigali
Measurable	Generate weekly revenue of 400,000 RWF (40,000 RWF x 10 bikes)
Achievable	Expand fleet every 6 months using reinvested profits
Relevant	Support Rwanda's green transport agenda and reduce urban air pollution
Time-bound	Reach a fleet of 25+ motorcycles within 12 months of launch

5. Market Analysis

5.1 Target Market

- Licensed moto-taxi riders seeking affordable bike access
- Environmentally conscious transport operators
- Urban commuters requiring reliable last-mile connectivity

- Delivery and logistics companies needing green fleets

5.2 Market Opportunity

- Rising fuel costs make electric motorcycles significantly cheaper to operate
- Rwanda's government actively supports green and electric transport
- Growing urban population in Kigali increases transport demand
- Spiro's expanding battery swap network reduces operational barriers
- Limited competition in the electric motorcycle leasing segment

5.3 Competitive Advantage

- Zero fuel cost gives riders higher net income per trip
- Partnership with Spiro provides reliable battery swap infrastructure
- Technology integration (GPS, MoMo) improves efficiency and reduces risk
- Eco-friendly positioning aligns with national policy and attracts support

6. Products and Services

This part shows Service and the Descriptions

- **Electric Motorcycle Leasing:** Weekly lease of Spiro e-motos to licensed riders at 40,000 RWF/week.
- **Battery Swap Access**: Riders access Spiro's battery swap network — no charging delays
- **Maintenance Services:** Scheduled maintenance and minor repairs covered from reserve fund
- **GPS Fleet Monitoring**: Real-time tracking of all motorcycles for security and performance
- **Delivery Partnerships (Future):** Partner with e-commerce and logistics companies for delivery contracts

7. Operational Plan

7.1 Setup Phase (Month 1)

- Register business with Rwanda Development Board (RDB)
- Purchase 10 Spiro electric motorcycles
- Formalize partnership agreement with Spiro
- Recruit and screen 10 licensed riders
- Sign hire-purchase/lease contracts with each rider
- Set up mobile money collection accounts (MTN MoMo / Airtel)

7.2 Operations Phase (Month 2 Onwards)

- Collect weekly payments every Monday via mobile money
- Monitor bike usage and performance via GPS tracking
- Conduct monthly maintenance checks on all bikes
- Review rider performance and payment compliance monthly
- Reinvest profits at the end of every 6-month period

7.3 Rider Eligibility Criteria

- Must hold a valid Rwandan motorcycle riding permit
- Must be registered with RTDA as a moto-taxi operator
- Must provide a guarantor or community reference
- Must sign and comply with the lease agreement terms

8. Use of Information Technology

This section include Technology used and Application:

- **GPS Tracking:** Monitor all motorcycles in real-time, security and performance management
- **Mobile Money (MoMo**): Weekly payments collected digitally via MTN MoMo or Airtel Money
- **Digital Records:** Track all revenue, expenses, and rider payments using spreadsheets or apps
- **Spiro Battery System**: Smart battery swapping technology, eliminates fuel costs and charging delays

- **Future Rider App**: Planned mobile app for rider management, payment tracking, and reporting

9. SWOT Analysis

STRENGTHS

- Lower operating cost — no fuel needed
- Eco-friendly and sustainable model
- High demand for affordable transport
- Battery swap via Spiro stations
- Technology-driven operations (GPS, MoMo)

WEAKNESSES

- Dependence on Spiro charging infrastructure
- New technology learning curve for riders
- High initial capital for electric bikes
- Limited battery swap stations currently
- Owner-dependent management at start

OPPORTUNITIES

- Rwanda's green economy national vision
- Government incentives for electric vehicles
- Rising fuel costs make e-motos attractive
- Expansion into delivery & logistics
- Growing urban transport demand in Kigali

THREATS

- Battery system dependency on Spiro
- Theft or misuse of motorbikes
- Competition from other lessors
- Regulatory changes in moto-taxi sector

- Technology failure or supply disruptions

10. Financial Plan (Year 1)

10.1 Initial Capital Allocation (15,000,000 RWF)

Items	**Amount (RWF)**
10 Electric motorcycles (Spiro ekon M2)	11,000,000
Insurance (all bikes in year)	1,800,000
Maintenance ,repair and other expenses	2,200,000
total	**15,000,000**

10.2 Revenue Projection

Revenue items	**Calculation**	**Amount (RWF)**
Weekly revenue per bike	40,000 RWF x 1 bike	40,000
Weekly revenue (10 bikes)	40,000 RWF x 10 bikes	400,000
Monthly revenue	400,000 x 4 weeks	1,600,000
Annual revenue	**1,600,000 x 12 months**	**19,200,000**

10.3 Annual Operating Expenses

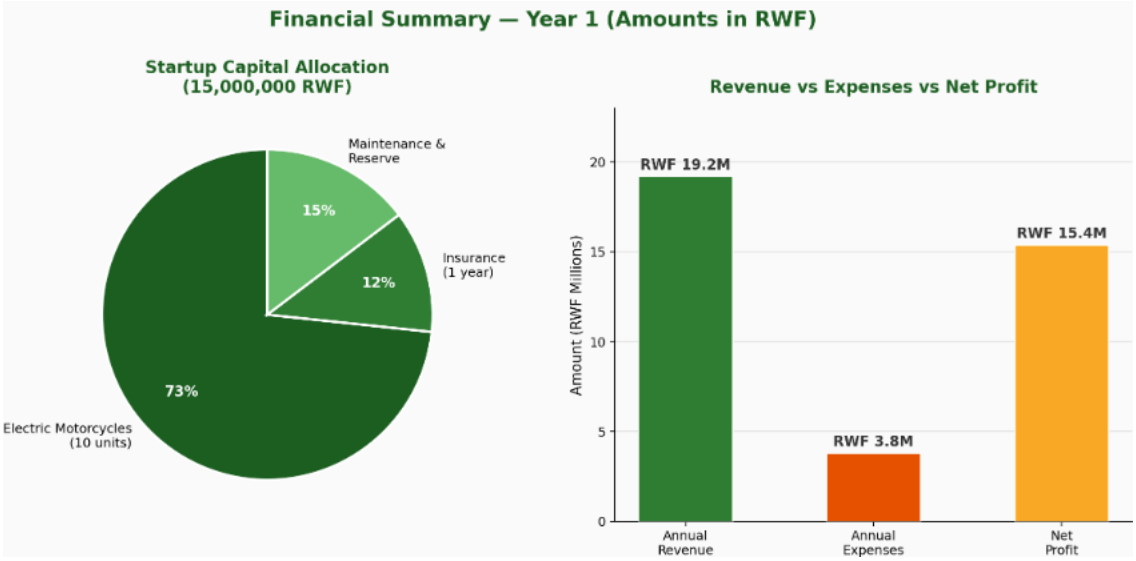
Expense Item	**Annual Amount (RWF)**
Routine Maintenance (all bikes)	2,000,000
Insurance Premium (annual)	1,800,000

TOTAL EXPENSES	**3,800,000**

10.4 Net Profit Summary

Financial Indicator	**Amount (RWF)**
Total Annual Revenue	19,200,000
Total Annual Expenses	3,800,000

NET PROFIT YEAR 1	**15,400,000**
Monthly Net Profit (approx.)	1,283,333
Break-even Month	**Month 1 (revenue exceeds expenses from Day 1)**



11. Growth Plan (Every 6 Months)

First 6 Months

Projected profit in the first 6 months: approximately 8,100,000 RWF.

- Reinvest profits to purchase 7 additional electric motorcycles
- Total fleet after first 6 months: 17 motorcycles
- Weekly revenue increases to 680,000 RWF (17 bikes x 40,000 RWF)

Second 6 Months

Projected cumulative profit by end of Month 12: approximately 14,020,000 RWF.

- Reinvest to purchase 12 additional electric motorcycles
- Total fleet by end of Year 1: approximately 29 motorcycles
- Weekly revenue increases to 1,160,000 RWF (29 bikes x 40,000 RWF)

Period	Fleet Size	Weekly Revenue	Cumulative Profit (RWF)
Launch (Month 1)	10 bikes	400,000	-

End of Month 6	17 bikes	680,000	8,100,000
End of Month 12	29 bikes	1,160,000	14,020,000

12. Environmental & Innovation Impact

- Reduces air pollution in Kigali by replacing petrol-powered motorbikes
- Supports Rwanda's commitment to clean energy and carbon reduction
- Promotes modern transport systems aligned with Vision 2050
- Spiro battery technology eliminates dependence on fossil fuels
- Contributes to Rwanda's green economy national development strategy
- Creates a model for electric vehicle adoption across East Africa

13. Conclusion

Kigali Smart E-Moto Lease Ltd combines profitability, sustainability, and technology into a single, compelling business opportunity. By leveraging Spiro's electric motorcycle infrastructure, the business eliminates fuel costs, reduces environmental impact, and generates strong financial returns for investors and the owner.

The financial model is straightforward and robust: 10 bikes generating 400,000 RWF per week, scaling to 29 bikes and over 1,160,000 RWF per week within 12 months through disciplined reinvestment. With proper management, this business can become a major player in Rwanda's rapidly evolving transport sector.

We respectfully invite the bank or investor to partner with us in this venture. The combination of a proven market, a clear revenue model, cutting-edge technology, and strong alignment with national green policies makes Kigali Smart E-Moto Lease Ltd an exceptional investment opportunity.
